No. 3085 OF 1914.

From

MAJOR C. S. LOWSON, I. M. S.,
Acting Inspector-General of Prisons,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

INSPECTOR-GENERAL OF PRISONS' OFFICE:
Poona, 30th March 1914.

Sir,

I have the honour to submit the Annual Administration Report together with the usual Statistical Tables on the Prisons and Jails in the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1913. From the 1st January to 17th April 1913, the office of the Inspector-General of Prisons was held by the Honourable Lieutenant-Colonel J. Jackson, M.B., I. M. S., who was granted privilege leave in combination with furlough for 14 months from 18th April 1913, from which date I have been in administrative charge of the Department.

JUDICIAL.

2. The number of Central, District, Special and Extramural Prisons has undergone no change during the year under report. Statistics of all the Third Class Subsidiary Jails have been grouped together with those of Lockups as was done in previous years. The Second Class Subsidiary Jails at Surat and Godhra, as reported in the last year's report, still continue, pending the construction of a barrack at the Ahmedabad Central Prison, which will be ready for occupation on the 1st May next.

3. From the general summary preceding the statements in the appendices to this report it will be seen that the total population of all classes of prisoners confined in the Prisons, Subsidiary Jails, Lockups and Civil Jails has been 103,861 as compared with 109,459 in the year 1912—a decrease of 5,598. The daily average population has been 11,437, which shows an increase of 538 when compared with the figures of the year previous.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and Second Class Subsidiary Jails only:—

Statement No. I—Number and disposal of convicts.

		1912.			1913.		
		Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year.	Prisons	7,384	157	7,541	8,992	322	9,314
	Jails	159	6	165	165	20	185
Imprisoned during the year.	Prisons	17,828	1,148	18,976	16,684	982	17,666
	Jails	1,088	122	1,210	1,062	84	1,146
Total ...	Prisons	25,212	1,305	26,517	25,676	1,304	26,980
	Jails	1,247	128	1,375	1,227	104	1,331
	Grand Total ...	26,459	1,433	27,892	26,903	1,408	28,311
	Daily average strength ...	8,625	280	8,905	9,204	330	9,534

5. There has been a decrease in the number of convicts admitted. The Prisons of Dhulia, Dhárwár, Bijápur, Hyderabad, Sukkur, Aden and Deccan Gang show an increase, while His Majesty's Common Prison, and the Prisons of Yerávda, Ahmedabad, Thána, Karáchi, Shikárpur and Ratnágiri show a decline.

The increase in the Prisons of Dhulia, Hyderabad, Sukkur, Dhárwár and Deccan Gang is mainly due, in the case of first named three Prisons, to a larger number of convictions under Chapter VIII of the Criminal Procedure Code. The increase in the Deccan Gang is very slight and is due to the admissions of prisoners during the whole year, the year previous being only for 9 months. The decline is most marked in His Majesty's Common Prison and is specially noticeable in prisoners sentenced to one month and under, where there is a decrease of nearly 1,000 under males and 143 under females, less of the latter being admitted for prostitution. In Ahmedabad and Shikárpur Prisons, the decrease is due to favourable monsoon and less number of crimes committed during the year.

6. With regard to the disposal of convicts there is an increase under the head "Transferred to other Jails". This is due to large batches of prisoners having been transferred from His Majesty's Common Prison, Yerávda, Dhulia, Bijápur, Dhárwár, Thána and Ahmedabad to the Deccan Convict Gang and from Hyderabad and Sukkur to the Sind Gang and other Jails in the Presidency to relieve overcrowding in those Prisons. The headings "Released on appeal", "Released under Remission Rules", "Transported beyond seas", "Transferred to Lunatic Asylum" and "Escaped" show an increase, while the headings "Released on expiry of sentence", "By order of Government", "Executed" and "Died" show a decline. Of the 34 released by order of Government, 11 were released on the ground of sickness—3 from His Majesty's Common Prison, 2 each from His Majesty's House of Correction and Sukkur and 1 each from Yerávda, Dhulia, Kárwár and Karáchi; 4 ex-military convicts were sent to England from His Majesty's House of Correction. 5 unfit life transports were released—2 from Yerávda and one each from Rájkot, Karáchi and Hyderabad. 10 prisoners from Yerávda, 2 from His Majesty's Common Prison, 1 from Hyderabad and 1 Chhapperband from Bijápur were released on other grounds. 100 life transports were deported to the Andamans *vid* Madras and 50 term transports *vid* Alipore against 125 lifers in the year previous. The headings "Transferred to Lunatic Asylum" and "Escaped" show an increase of 10 and 4 respectively over the figures for the last year, while the heading "Executed" show a decline of 10. The number of deaths shows a decrease of 11, which will be commented on later. There were no state prisoners in confinement at the close of the year.

Statement No. II—Religion, age, education and previous occupation of convicts.

7. There is an increase under the sub-heads "Eurasians", "Native Christians" and females under "Mahomedans", "Buddhists and Jains" and "All other classes" while all the other sub-heads show a decline. The number of juveniles under 15 years of age admitted during the year under report was 23 against 46 in the year previous. Out of 18 males and 5 females convicted, 14 males and 3 females were sentenced to "one month and under", 4 males and 1 female to "above 1 month and not exceeding 6 months" and 1 female to "over six months." Out of 23 admitted, 2 males and 1 female had previous convictions. Of the total number of juveniles admitted, 3 were sent to the Reformatory School by the District Magistrates, thus leaving 20 juveniles who underwent imprisonment. Out of this number of 20, 3 were considered by the District Magistrate as unsuitable cases for the Reformatory; 1 was under parental care and so no action was taken by the District Magistrate; 1 was reported to the District Magistrate but the Medical Officer considered him over 15 years of age; in the case of two, as 1 was convicted under Forest Act and the other under Railway Act, no action was taken for their removal to the Reformatory School.

The sub-heads "40 to 60" under males and "Above 60" show an increase while all other sub-heads show a decrease. Out of 16,526 prisoners shown "under 15 to 40" years of age, 6,151 prisoners were under 25 years of age and of the latter number 4,951 were convicted for the first time. Under "Education"

all the sub-heads show a decrease. Under previous occupation, the sub-heads "Persons employed under Government", "Professional persons", "Persons engaged in agriculture", "Persons engaged in Mechanical Arts, etc." show an increase, while all other sub-heads show a decrease over the figures for the year previous. The percentage of the total number admitted to free population according to the Census of 1911 is 0·173 during the year under report.

Statement No. III—Nature and length of sentence.

8. There is an increase under the sub-heads "Above six months and not exceeding one year", "Above one year and not exceeding two years", "Above five years and not exceeding ten years", "Exceeding ten years", "Sentenced to transportation" and "Sentenced to death" while all other sub-heads show a decline. There were 1,216 prisoners sentenced to simple imprisonment, 17,323 sentenced to rigorous imprisonment and 12 sentenced to rigorous imprisonment with whipping as compared with 1,995, 17,845 and 14 in the year previous. The number of prisoners sentenced to rigorous imprisonment with solitary confinement was 261 as compared with 332 in 1912, 317 in 1911, and 344 in 1910. Proper accommodation for carrying out sentences of solitary confinement is still needed in many Jails and some of the sentences could not be carried out for lack of solitary cells. 5,414 prisoners were sentenced to "Not exceeding one month" as compared with 6,454 in 1912; of these 2,757 were admitted to the Common Prison, Bombay, against 3,766 in 1912. No less than 625 prisoners were imprisoned in Bombay for 7 days and under in default of payment of fine. Although there is a decrease of nearly 1,000 in admissions, still the award of short sentences, especially in the case of persons having previous convictions, has no effect. For instance, I quote here few instances:—

Name.	Sex.	Age.	Crime.	Sentence.	Previous conviction.
D. A. ...	Male ...	35	Section 352, Indian Pena Code.	7 days' rigorous imprisonment.	Seven.
R. B. ...	Male ...	20	Section 380, Indian Penal Code.	Do. ...	Two.
M. E. ...	Male ...	25	Section 408, Indian Penal Code.	Do. ...	Three.
T. S. ...	Female ...	20	Section 379, Indian Penal Code.	Do. ...	Two.
K. E. ...	Male ...	25	Sections 379 and 511, Indian Penal Code.	Do. ...	Four.
A. K. ...	Male ...	20	Section 379, Indian Penal Code.	Do. ...	One.
P. B. ...	Male ...	35	Section 380, Indian Penal Code.	Do. ...	One.
D. D. ...	Male ...	20	Section 379, Indian Penal Code.	Do. ...	One.
G. M. ...	Male ...	34	Section 406, Indian Penal Code.	Do. ...	One.

Statement No. IV—Reconvictions.

9. The statement noted in the margin deals with the reconvicted prisoners. The number of habituals identified by Jail Officials has been 92 against 106 in the year previous. 2,130 were classified as habituals out of a total of 3,539 previously convicted prisoners. This statement does not include 1,385 prisoners sentenced under Chapter VIII of the Criminal Procedure Code but who, under the orders of Government, are always treated as habituals. Of this number 892 were sentenced in Sind:—

1	2	3	4	5	6	7	8
Serial No.	Jails.	Number admitted during the year.	Number in column 3 identified as "Habituals" before conviction and classified as such by the convicting Court. 18	Aden ...	210	6	.....	.....	6	2·9
	Total 1913 ...	17,666	1,887	151	92	2,130	12·1
	„ 1912 ...	18,976	1,876	202	106	2,184	11·5
	„ 1911 ...	16,105	1,430	179	170	1,779	11·0

10. From the information supplied by the Inspector-General of Police, it appears that 1,729 persons were identified in the Bombay Presidency inclusive of Sind as compared with 1,672 in the year previous. Out of 1,729 prisoners, 105 were identified in Bombay, 330 at Ahmedabad, 252 at Dhulia, 247 at Yerávda, 206 at Thána, 141 at Dhárwár, 108 at Sholápur, 104 at Belgaum, 82 in Bijápur and the rest in the other parts of the Presidency.

Statement No. V—Escapes.

11. The number of escapes during the year under report has been 10 against one in the year previous. All the escapes were from outside the walls, 1 from the Deccan Gang, 1 from Karachi, 2 from Hyderabad, 4 from Sind Gang, 1 from Aden Prison and 1 from the Surat Jail. Two prisoners, who have been shown against Hyderabad Central Prison, were sent under Testimony Act to Nawsháro, and from there they effected their escape from the Police custody. Four prisoners, who escaped from the Sind Gang, were working on the "Metal breaking" file on the quarry from where they effected their escape. Two of them were recaptured and two are still at large. The warders at fault have been either prosecuted or punished departmentally.

Statement No. VI—Offences and Punishments.

12. The statement noted in the margin relates to the offences committed by and the punishments awarded to the convicts confined in the Prisons and Second Class Subsidiary Jails. The offences dealt with by the Criminal Courts

show an increase of 28 over the figures for the previous year as will be seen from the details given below :—

	1912.	1913.
Section 52, Prisons Act.		
Relating to work	5	19
Indian Penal Code.		
Culpable homicide not amounting to murder	.....	1
Assaults	5	.....
Mischief	1	.....
Hurt and grievous hurt	2	17
Attempt to escape, and escape	1	4
Attempt to commit suicide	.....	1
Total ...	14	42

13. It will be observed from the following table that the number of offences has slightly risen from 20,733 to 20,944 or an increase of 211 over the figures for the previous year although the average population to which this statement refers was 9,534 against 8,905 in the year 1912. The sub-heads "Relating to work" under major, "Relating to prohibited articles" under minor and "All other breaches of Prison rules" show an increase, while all other sub-heads show a decline :—

	1912.		1913.	
Offences dealt with— By Criminal Courts	14		42	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents— Relating to work	7,322	3,138	6,579	3,340
Do. prohibited articles ...	1,866	885	1,877	810
Do. assaults, mutiny and escapes ..	110	282	42	162
All other breaches of prison rules .	4,789	2,311	5,414	2,720
Total ...	14,087	6,646	13,912	7,032

14. The following table shows the nature of punishments awarded during the past two years. It will be seen that the total number of major and minor punishments awarded by the Superintendents during the year under report was 21,472 and the total number of offences 20,944. The difference is due to 528 offences having been dealt with during the year under report by the award of combined punishments :—

	1912.	1913.
Punishments inflicted—		
By Criminal Courts	14	42
By Superintendents—		
Warnings	3,506	3,990
Penal diet	2,370	2,320
Separate, cellular and solitary confinement	138	137
Hand-cuffing and link fetters	3,485	3 731
Other punishments	4,750	3,891
Total ...	14,249	14,069
Separate, cellular and solitary confinement	261	264
Penal diet with solitary confinement	112	98
Fetters or hand-cuffing behind or to a staple	3,473	3,721
Corporal punishments	67	67
Combination of minor punishments	64	54
Other punishments	2,848	3,157
Total ...	6,825	7,361
Grand Total	21,088	21,472

15. Out of 21,472 punishments awarded by the Superintendents of Prisons and Jails 14,069 or 66 per cent. belong to the minor class and 7,361 or 34 per cent. belong to the major. The sub-heads "Warnings" and "Hand-cuffing and Link fetters" under minor punishments show an increase, while all other sub-heads show a decline. Under major punishments, the sub-heads "Separate and Solitary confinement", "Fetters or hand-cuffing &c." and "Other punishments" show an increase, while the rest show a decline. The Common Prison, House of Correction and the prisons of Yeravda, Kárwár, Deccan Gang, Thána, Ahmedabad and Sind Gang show an increase, while all other prisons show a decline. The increase in the Common Prison is due to larger number of punishments relating to work. The offences relating to work were 551 as against 452 in the year 1912. Of the total punishments 271 were "warnings" only. The increase in the Prisons of Yeravda, Deccan Gang, Kárwár, Thána and Sind Gang is mainly due to larger average number of prisoners confined during the year under report. In the Yeravda Central Prison the increase is under "relating to work" (235) and "all other breaches of Jail rules" (351). The increase in the Deccan Gang, which is due to higher daily average strength of 1,223 against 989 in the previous year and to a further marked increase in the number of thoroughly bad characters received from other prisons, is under "relating to work" (995) and under "all other breaches of Jail rules" (610). In the Kárwár Prison the increase is under "relating to work" (39) and "all other breaches of Jail rules" (47). In the Ahmedabad Prison the increase (160) is under "all other breaches of Jail rules" and in the Sind Gang (198) it is under "relating to work".

The most marked decreases are at Hyderabad (2,085) and Sukkur (297). The Superintendent of Hyderabad Central Prison attributes the decrease to the fact that the advantages of good behaviour in earning remission and easier treatment being better understood and appreciated. Assaults were much fewer owing to careful supervision of the work of the warders and convict officers. Fetters and night hand-cuffing were resorted to more than other punishments, which had a very good effect as it does not interfere with the performance of daily tasks. At Sukkur the decrease is due to better discipline.

Out of 20,944 offences, 2,819 habituals were responsible for 8,074 and 5,072 non-habituals for the balance of 12,870 offences. The percentage of habituals is 18·7 calculated on admission rates. The actual percentage to population is 28·0. From the above it will be seen that only 7,891 prisoners were

punished and the number who actually passed through the prisons and jails was 28,311. Very many of these prisoners were only punished once, the punishment frequently being only a "warning"; 3,990 "warnings" were actually given. Of the total number of punishments, 1,952 were inflicted on convict officers for negligence in the discharge of their duties.

16. The sub-joined table gives particulars as to the number of stripes inflicted on prisoners in our prisons during the year under report. It will be seen that although the total number of corporal punishments is just the same as those for the previous year, there is an increase in certain prisons. These are Common Prison, Yeravda, Dhárwár, Thána, Ahmedabad and Sind Gang. The 12 corporal punishments at Yeravda were inflicted for the following offences—four for assault, six for short and bad work, one for grossly indecent behaviour and one for tearing up his clothes and pretending to be insane.

In the Common Prison one punishment was awarded for assault.

In Dhárwár Prison one was for refusing to work and another was on a carpenter for making a secret place for concealing articles in his working table.

In Thána Prison one for assault and one for refusing to work.

In the Sind Gang one was for assault and another for refusing to work and assaulting a convict officer.

In the Ahmedabad Central Prison five were for assaults, two for short work, one for doing no work, and 19 for short and bad work. Ready resort to this form of punishment is generally the sign of an inexperienced Superintendent as stated by Colonel Jackson, I. M. S. in his last report. Out of 19 cases for short and bad work, there were 13 cases in which from one to five stripes were inflicted and it is much regretted that the instances have occurred in the most important prisons of Yeravda and Ahmedabad. It is not understood what the real deterrent effect must have been on a prisoner who was punished with one or two stripes for spoiling his work. The excess of flogging in the Ahmedabad Central Prison and in Yeravda Central Prison has already been reported to Government.

	1	2	3						4	5	6

Total 1912 ...	25,331	20,290	4	11	24	7	21	67	0·3	0·3	...	...

17. During the year under report 9,691 prisoners were fettered as compared with 8,872 during the year 1912. The increase is mostly due to the increased daily average population of the Sind and Deccan Gangs.

REMISSION SYSTEM.

18. It will be seen from the figures appearing in statement C appended to this report that 3,203 prisoners were released during the year under remission system as compared with 2,686 in the year previous. The percentage during the year 1913 of those released under Remission system to the total number who might have been released under that system, if of average good conduct upto the date of release, was 93·1 as against 98·0 in the year 1912. The practice of mustering prisoners and reading and explaining to them the benefits of the remission rules has been continued. Special awards under rules 514 and 519, remission for committing no offence during the previous 12 months and for doing special work were granted to 1,295 and 2,209 prisoners respectively against 1,149 and 1,339 in the year previous.

It will be seen from these figures that there is an increase of 1,026 prisoners over the figures for the past year, which is chiefly due to the award of special remission to the prisoners under sentence of one year, who were appointed as convict officers. The system continues to work very well.

Statement No. VII—Convict Officers.

19. The average number employed as Prison Officers during the year under report in our Prisons and 2nd Class Subsidiary Jails was 953 males and 12 females against 1,024 males and 9 females in the year previous. Every Prison complains of the difficulty in getting good men as convict officers, and as stated in the last report, necessary orders have already been issued to promote prisoners under one year's sentence to convict officers, and the result has been, on the whole, satisfactory.

Statement No. VIII—Diet.

20. The statement noted in the margin shows the different diet scales in the Prisons and Second Class Subsidiary Jails. These scales have been found to work satisfactorily. Such changes as have been made during the year are noted in the fifth column of this statement.

Statement No. XVII—Undertrial Prisoners.

21. The statistics of undertrial prisoners confined in our Prisons, Jails and Lock-ups are embodied in the marginally noted statement. The number admitted during the year under report shows a decrease of 6,785 over the figures for the year previous. The daily average strength has also fallen from 1,914 in 1912 to 1,857 in the year under report.

22. After the submission of the last Annual Report I drew the attention of several District Magistrates of the Districts in which juvenile and adolescent undertrials under 21 years were detained in prisons longer than 15 days pending their trial. I am again drawing attention of the District Authorities with a view to their issuing necessary instructions to curtail the period and number of remands. I give below a few instances which appear to me objectionable :—

Name.	Age.	Offence.	Date of admission.	Date of disposal of the case.	Result of trial.	By whom tried.	No. of remands.

There is no doubt that these Juvenile adults get contaminated by being marched backwards and forwards to the Court in company with hardened criminals.

23. The number of escapes was 13 as compared with 19 in the year previous. Of the 13 escapes, 5 took place from the Subsidiary Jails in the Lárkhána District, 4 from Hyderabad District and one each from Surat, Náwabshah and Kánara Districts.

24. The number of deaths shows an increase of 15 over the figures for the year previous. Out of 33 deaths 8 occurred in our Prisons and 25 in the 3rd Class Subsidiary Jails and Lock-ups. Of the 25 deaths, 5 were from Pneumonia, two from Plague, two from Syncope and one each from Diarrhœa, Congestion of Liver, Heart Disease, Acute Bronchitis, Fracture of Skull, Abscess, Typhoid

fever, Tubercle of Lung, Paralysis, Enlargement of Spleen, Gangrinous Stomatitis, Septic Fever and Tetanus, one prisoner died of injuries, one of poisoning and one prisoner committed suicide in the Bombay Lock-ups.

25. The number remaining on 31st December 1913 was 372 males and 24 females in Prisons, 87 males and 10 females in the Second Class Subsidiary Jails and 1,071 males and 64 females in the Third Class Subsidiary Jails and Lock-ups, thus making a total of 1,530 males and 98 females.

Civil prisoners.

26. In the beginning of 1913 there were 46 males in the Civil Jails. The number admitted during the year was 829 males and 5 females; 840 males and 4 females were released; thus leaving a balance of 35 males and one female at the close of the year under report. The daily average number has been 46 against 50 in the year previous. The total cost and cost per head have respectively been Rs. 5,018-0-3 and Rs. 109-1-5 during the year under report as against Rs. 6,245-5-4 and Rs. 124-14-4 in the year previous.

FINANCIAL.

Statement Nos. IX and X—Expenditure.

27. The statements noted in the margin deal with the gross expenditure on account of convicted and undertrial prisoners confined in the Central, District and Extramural Prisons and the Subsidiary Jails and lock-ups. The cost of police guards has been omitted as usual except in the case of the Central Prisons of Yeravda and Ahmedabad and the Special Prison of Thána, where the guarding is undertaken by the Reserved Armed Warder Guard. As the system of accounts of the Prison Press has been changed and based on "Unit cost" system since 1st January 1913 under orders of Government conveyed in their Resolution No. 1545, dated 27th February 1913, in the Judicial Department, the expenditure on account of that institution has been omitted from these statistics.. The realization from the sale proceeds of Garden produce has been deducted from the total charges. The gross expenditure during the year 1913 has been Rs. 10,67,076 and the cost per head Rs. 93-10-10 against Rs. 10,24,380 and Rs. 94-6-9 in the year previous.

Establishment.

28. The total cost under this head has fallen from Rs. 3,35,249 and Rs. 30-14-3 in the year 1912 to Rs. 3,12,101 and Rs. 27-6-5 in the year under report. The decrease is mainly due to the establishment charges on account of the Press having been deleted from these statements.

Dietary charges.

29. The total cost under this heading has risen from Rs. 8,71,813 in the year 1912 to Rs. 5,08,822 in the year under report, but the cost per head has fallen from Rs. 47-7-10 in 1912 to Rs. 44-10-8 in the year under report. The increase in the total cost is mainly due to the increased daily average population confined in Prisons as well as in Subsidiary Jails and lock-ups during the year under report.

Garden.

30. The value of vegetables and other supplies from the gardens attached to our prisons and jails shows an increase of Rs. 5,648 over the figures for the year 1912, the figures being Rs. 33,252 against Rs. 27,604 in the year previous. The prisons of Yeravda, Dhulia, Bijápur, Deccan Gang, Dhárwár, Ahmedabad, Karáchi, Shikárpur and Sind Gang show an increase, while all other prisons show a decrease. The decrease in the prisons of Thána, Hyderabad, Kárwár and Sind Gang was mainly due to the severe heavy rainfall, which washed away all the seedlings.

Hospital charges.

31. The total cost and cost per head have risen from Rs. 35,720 and Rs. 3-4-8 in the year 1912 to Rs. 48,795 and Rs. 4-4-6 in the year under report. The increase is partly due to the increased daily average number of sick in hospital, more extras to the weakly prisoners and partly to the intimations from the Accountant General, Bombay, for the cost of Europe medicines, supplied during 1912, having been received in 1913 and adjusted in the same year.

Clothing and bedding.

32. The total cost and cost per head have risen from Rs. 48,565 and Rs. 4-7-8 in the year 1912 to Rs. 54,366 and Rs. 4-12-4 in the year under report. The increase is partly due to the increased daily average population throughout the year and partly to the wool being purchased for winter clothing at a very high rate.

Sanitation charges.

33. The expenditure under this heading shows an increase of Rs. 495 over the figures for the past year, the figures being Rs. 25,675 against Rs. 25,180 in the year preceding, but the cost per head has fallen from Rs. 2-5-2 in the year 1912 to Rs. 2-4-1 in the year under report. The decrease in the cost per head is due to the increased daily average population.

Charges for moving prisoners.

34. This head shows an increase of Rs. 4,186, the figure for 1913 being Rs. 44,226 and Rs. 3-14-1 as against Rs. 40,040 and Rs. 3-11-2 in the year 1912, due to the greater number of transfers in the prisons to relieve overcrowding during the year under report.

Charges for other Miscellaneous Services and Supplies.

35. The total cost and cost per head have risen from Rs. 39,003 and Rs. 3-9-6 in the year 1912 to Rs. 46,391 and Rs. 4-1-2 in the year under report. The increase is mainly due to the biennial supply of uniforms to the warders in the Deccan Convict Gang and in the prisons of Yeravda, Ahmedabad, Thána, Kárwár and Rájkot, larger payments being made on account of gratuities to the more released convict officers in the prisons of Yeravda and Ahmedabad, heavier lighting charges at Yeravda, and also to the amounts paid for petty constructions and repairs having been debited to this head.

Travelling allowances, etc.

36. The total cost and cost per head have fallen from Rs. 10,545 and Rs. 0-15-7 in the year 1912 to Rs. 5,901 and Rs. 0-8-4 in the year under report. The decrease is mainly due to the grain compensation not having been paid to the low-paid subordinates during the year under report.

Contingencies.

37. The total cost and cost per head have fallen from Rs. 14,190 and Rs. 1-4-11 in the year 1912 to Rs. 12,559 and Rs. 1-1-8 in the year under report. The decrease is mainly due to the less number of forms and books printed and bound for the use of this Department.

Extraordinary charges for live stock, tools and plant.

38. This head shows an increase of Rs. 4,165, the figures being Rs. 4,075 and Rs. 0-6-0 in the year 1912 against Rs. 8,240 and Rs. 0-11-7 in the year under report. The increase is mainly due to the purchase of conservancy carts, padlocks and brass badges in the Ahmedabad Central Prison, to the purchase of large copper pots and plates, chain fetters and bel-chains in the Deccan Convict Gang on account of the increased population and also in the Sind Gang to the purchase of water carts, large copper pots, zinc pots and plates, one Kitson light, chain fetters for prisoners and belts, etc., for warders.

Statement No. XI—Employment of convicts.

39. The statement noted in the margin deals with the employment of convicts in our Prisons and Second Class Subsidiary Jails. It will be seen that the total number of prisoners sentenced to labour has risen from 8,717 in 1912 to 9,355 in the year under report. The figures for the Second Class Subsidiary Jails, which show a decrease of 30 over the figures for the past year, is due to the abolition of the Ahmednagar, Sátára and Násik Subsidiary Jails. With the exception of the sub-heads "Convalescent and infirm", "On unremunerative labour" and "Prison officers" all other subheads show an increase over the figures for the past year. The number of prisoners employed on extramural work show an increase of 297 over the figures for the past year.

Statement No. XII—Net Cash Earnings.

40. The marginally noted statement deals with the net cash earnings of convicts sentenced to labour. The cash earnings have fallen from Rs. 2,49,623 in the year 1912 to Rs. 1,37,914 in the year under report. The decrease

is mainly due to the fact that owing to the change in the accounts of the Prison Press, which have been based on the 'Unit Cost' system, the figures for that institution have been omitted from this statement. His Majesty's House of Correction, and the prisons of Dhulia, Deccan Convict Gang, Dhárwár, Ratnágiri, Rájkoṭ, Karáchi, Sukkur, Sind Gang and Aden show an increase, while all other prisons show a decline.

The increase in the profits in His Majesty's House of Correction is due to a large number of orders received especially from regiments for Billiards surrounds, etc.

In the Dhulia Prison the increase is mainly due to the recovery of the outstanding debts of the last year and more articles sold to the public during the year under report.

The increase in the Dhárwár Prison is due to the smaller purchases of raw materials during the year and utilizing the stock of previous years.

In the Ratnágiri Prison the increase is due to the sale of manufactured articles of 1912, to the recovery of outstanding debts of the past year and to the less purchases of raw materials during the year under report.

In the Rájkot Prison it is due to a comparatively large supply of carpets to the Agency Police.

In the Karáchi Prison the increase in profits is mainly due to increased sales of manufactured articles in stock at the end of the last year and to the recovery of outstanding debts of the past year, larger supply of manufactured articles to Government departments, and to the supply of prison articles to other jails during the year and to the less balances of manufactured articles, raw materials and outstanding debts at the end of the present year.

In the Sukkur Prison the increase is due to the recoveries of outstanding debts and to the increased output of manufactured articles from the factory.

In the Aden Prison the increase is due to a credit of Rs. 300 having been given by the Military Department for employing convicts extramurally.

The decline is most marked in His Majesty's Common Prison, and in the prisons of Yeravda, Bijápur, Kárwár, Thána, Ahmedabad and Hyderabad.

In the Yeravda Central Prison the decrease is partly due to the Prison Press figures, as stated above, having been deleted from the statistics, and partly due to the large quantities of raw materials remaining in balance at the end of the year, for being used for making woollen carpets ordered for the Poona Government House. There is an increase in Extramural profits, which is due to the employment of prisoners by the Lunatic Asylum, Electrical Engineer and Messrs. Marsland and Co., which amounted to Rs. 3,709 against Rs. 148 in the year previous.

The decrease in His Majesty's Common Prison is due to the fact that no oakum was received for picking from the Government Dockyard. Also there is a large balance of outstanding debts, *viz.* Rs. 718, due to the Prison factory against Rs. 90 the year previous. For the past four months practically all the prisoners except weavers have been employed on opening and spinning wool.

In the Bijápur Prison the decline is partly due to less demands by Government departments for prison-made articles and partly to less local sales on account of prevalence of plague and complete evacuation of the town for over four months.

The decrease in the Kárwár Prison is due to high prices of cocoanuts, which are used for the industry in the prison, and although the cocoanuts were purchased at higher rates, they did not yield the required quantity of oil.

The decrease in the profits of the Thána Prison Factory is attributed to the following reasons :—Larger value of Europe stores on hand at the close of the year; (2) value of raw materials purchased during 1912 having been drawn from the treasury during the year under report; (3) larger amount of out-

standing debts due to the Prison at the end of the year and (4) marked increase in the value of articles supplied to the Prison itself, to other Prisons and Lock-ups during the year.

In the Hyderabad Central Prison, the decline is due to the larger balance of manufactured articles at the end of the year. The decrease is only Rs. 302 over the figures for the year previous.

In the Ahmedabad Central Prison the decline, which is Rs. 555 over the figures for the past year, is more apparent than real. Large purchases of Raw Materials were essentially necessary to keep up the orders, the figures being Rs. 61,814 agtinst Rs. 50,729 in the year previous.

41. Of the sum of Rs. 1,37,914 mentioned at the commencement of last paragraph, a sum of Rs. 70,462 represents the profits of our Prison Factories, Rs. 1,516 of our Second Class Subsidiary Jails and Rs. 67,452 for the Extra-mural labour. The average cash earnings per head of those sentenced to labour and of those employed on manufactures in the case of Prisons and Second Class Subsidiary Jails have been Rs. 14-12-0 and Rs. 37-8-0 as against Rs. 28-10-0 and Rs. 79-14-0 in the year previous.

42. During the year under report Jail-made articles of the value of Rs. 68,307 were sold to the Government Departments against Rs. 57,669 in the year previous. Articles of the value of Rs. 39,783 by the Ahmedabad Central Prison, of Rs. 6,542 by the Dhulia Prison and of Rs. 303 by the Dhárwár Prison were supplied to the Police Department:—

	Rs.
Public Works Department	1,824
Telegraph Department	2,224
Other Civil Department	61,982
Marine Department	2,127
Military Department	16
Ordnance Department	134

The increase is mainly due to more articles of Police Clothing having been supplied during the year under report.

Deccan Convict Gang.

43. This Gang was located at Visápur in the Ahmednagar District throughout the year. With an average of 1,221 prisoners the Gang has earned Rs. 14,984 as against Rs. 11,519 in the year previous. The increase is chiefly due to the average number of prisoners being more than in the year previous.

Sind Gang.

44. This Gang was located at Ganja Takar near Hyderabad (Sind). With an average population of 744 prisoners the Gang has earned Rs. 41,996 against a loss of Rs. 825 in the year previous. The increase is chiefly due to the sale of metal which was lying in stock for the last two years. The prisoners were employed in breaking metal in the quarry and in loading and unloading ballast for the N.-W. Railway during the year under report.

Sale of Quinine Packets.

45. The net profit of the quinine industry in the Central Prisons of Yerávda and Hyderabad amounted to Rs. 3,253-6-6 during the year under report against Rs. 2,791-10-0 in the year previous. The Yerávda Central Prison shows a profit of Rs. 2,697-10-9, while a sum of Rs. 555-11-9 represents the profits of the Hyderabad Central Prison. The value of quinine purchased, packing materials, service stamps and establishment charges amounted to Rs. 21,394-4-0 during the year as against Rs. 1,404-10-7 in 1912 and the amount paid into the Treasury during the year under report was Rs. 22,964-1-8 as against Rs. 20,434-10-5 in the year previous.

Prison Press.

46. The following figures represent the maintenance of the Press and the outturns during the year 1912 and 1913. The number of prisoners employed during the year under report was 325 against 291 in the year previous and the actual cost of their maintenance was Rs. 23,432-7-8 against Rs. 28,722-9-9 last year.

Comparative Abstract of Outturn during 1912 and 1913.

	Main Sections.	Outturn in	Outturn. 1912.	Outturn. 1913.
1.	Composing	Pages (Foolscap Folio, solid Pica).	4,369	8,802
2.	Stereo Foundry	lb. (Finished Plate) ...	4,412	5,084

14.	Envelope-making ...	F'cap Thin Envelopes ...	1,57,77,522	1,40,23,073

* "Folding" is a new sub-section introduced from January 1, 1913.

Statement No. XIII—Net cost.

47. The statement noted in the margin shows the total cost of maintenance for all Prisons, Subsidiary Jails and Lock-ups. The total expenditure excluding charges for inspection and general superintendence has amounted to Rs. 10,27,169 during the year under report against Rs. 9,77,398 in the year previous. The total cash earnings have been Rs. 1,37,914-11-0 against Rs. 2,49,623 in the year 1912, thus making a net cost to Government of Rs. 8,89,254-5-0 during the year as against Rs. 7,28,274-14-0 in the year previous. The average net cost to Government per prisoner has been Rs. 78-1-0 against Rs. 67-2-0 in the year previous.

VITAL.

Statement No. XIV—Sickness and Mortality.

48. The statement noted in the margin deals with the sickness and mortality of all classes during the year under report. The following table compares the figures for 1912-1913 of prisoners confined in the Central, District, Special and Extramural Prisons, Subsidiary Jails, Civil Jails and Lock-ups :—

Year.	Daily average strength.	Admission into Hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1912	10,899	5,632	219·1	174	16·0
1913	11,437	5,879	234·8	178	15·6

49. The death-rate for the year is 15·6 against 16·0 last year. Excluding one case of cholera, which will be commented on subsequently, the death-rate would have been 15·1. Admissions into Hospital increased by 247 and the daily average sick by 15·7. The increase is mainly due to the increased daily average population confined during the year under report.

Of the 150 prisoners who died in the Central and District Prisons, 41 were admitted in bad health, of whom 16 were suffering from the disease from which they succumbed on their admission in the Jails ; 36 were in fair health ; and the remainder 73 in good health.

50. There were two cases of Plague in the 3rd Class Subsidiary Jails, one in the Násik 3rd Class Subsidiary Jail and the other in the Wái 3rd Class Subsidiary Jail in the Sátára District. There were no cases in the Prisons and

2nd Class Subsidiary Jails this year, but wherever necessary inoculation has been resorted to as a precautionary measure.

51. There has been constant overcrowding in the following Prisons:—H. M.'s Common Prison, Central Prison of Ahmedabad, Yerávda and Hyderabad, District Prisons of Dhulia, Sukkur and Thána, Sind Convict Gang and slight overcrowding at Bijápur during the year. In the Karáchi Prison, the overcrowding was during the month of September only. At Dhárwar, it was for 239 days during the year. The excess population in the Common Prison is kept down as far as possible by transferring prisoners to the Deccan Gang and other prisons. In the Sind Gang, Sukkur, Ahmedabad, Hyderabad, Yerávda and Karáchi the excess population slept in tents, verandahs and unused work sheds.

52. The following Prisons, which show a death-rate of over 15 per mille, are commented on below:—

His Majesty's House of Correction.—Death-rate 39·7 per mille against 21·0 last year. Of the deaths, two each died from Pneumonia, Bronchitis, Diarrhœa and Tubercle of the lung, one from Extravasation of Urine and one from Heart Failure. All the prisoners were admitted in a "Fair" state of health with the exception of one, who was admitted in a bad state of health. On the whole, the general health of the prisoners was good during the year. One man who died of heart failure was suffering from Valvular Disease of the Heart with Bronchitis and died in the barrack at night.

Sind Gang.—Death-rate 36·3 per mille as against 23·6 in the year 1912. Of the deaths, five were from Pneumonia, four from Sun Stroke, two each from Malarial fever, Dysentery, Fatty degeneration of Heart, and one each from Secondary Syphilis, Gonorrhœa, Ulcerative Colitis, Enteritis, Diarrhœa, Rheumatism, Remittent fever, Brancho Pneumonia Ulcerative Stomatitis, Intestinal Obstruction, Mitral Regurgitation and Angina Pectoris. Owing to the overcrowding of the other Sind Prisons, drafts were sent freely to the Gang and it was overcrowded throughout the year. Every extreme of temperature is encountered in this Prison: the prisoners working in stone quarries, which are intensely hot in the Summer and swept by the North and East wind in the Winter. Very heavy rains resulted in the flooding of the Prison enclosure and entailed great discomfort and exposure to prisoners and prison officials alike. Malaria was very bad in the surrounding district and to guard against it, quinine was issued as prophylactic in 10 grain doses twice a week. On the whole, the health of the Gang was fair during the year.

His Majesty's Common Prison.—The death-rate is 35·2 per mille as against 16·4 last year. Out of 13 deaths, five prisoners were received suffering from the disease of which they subsequently died. Looking to the buildings, constant overcrowding and the miserable state of health of prisoners on admission, the death-rate is not very high. Of the 13 deaths two died of Pneumonia, and one each from Dysentery, Acute Peritonitis, Tetanus, Chronic Málaria, Tubercle of Lungs, Contusion, Abdomen, obstruction of Bowels, Syphilis Secondary, Conjunctivitis Granular, Inflamation connective tissue, and Pernicious Anæmia. Of these three were undertrial prisoners.

Kárwár Prison.—The death-rate is 31·2 against *nil* last year. The increase is due to a small number of deaths in a small population. One prisoner died of Diarrhœa, one from Acute Diarrhœa and one from accidental Carbolic Acid poisoning due to breach of standing orders by the Sub-Assistant Surgeon and carelessness of an Hospital Attendant. The Sub-Assistant Surgeon and prisoner at fault were punished departmentally. There was one case of Cholera. The prisoner was attacked in the morning and died in the evening on the same day at 8-30 p.m. If these two deaths be excluded, the death rate would come to 15·6 per mille. The health of the prisoners during the year was good.

Karachi Prison.—Death-rate 23·6 against 10·2 last year. Out of 9 deaths (including one undertrial) two died of Tubercle of the Lungs, one having contracted the disease in the Jail. Three, who were old, being 50, 60 and 76 years of age, and were admitted in a weak state of health, died of general

debility. One from Scurvy had a large spleen on admission in the Jail. One who died of Cancer of Rectum came in with the disease. One died of Pericarditis and one of Pyorrhœa Alveolaris. A considerable number of prisoners were received in the Jail with enlarged spleens, but those not sufficiently ill to require Hospital treatment were given quinine 10 grains daily in solution for one month. Twenty cases of Scurvy were admitted to the Hospital during the year, but the outbreak was not capable of explanation as the diet was varied and contained a large portion of fresh food. On the whole the general health has been good.

Thána Special Prison.—The death-rate is 21·1 against 29·3 last year. Of the 14 prisoners who died in the Prison Hospital, only 4 were admitted in good health. The deaths were due to Diarrhœa (5), Dysentery (2), Pneumonia (2), Tuberculosis of Intestines (2), and one each of Tubercle of the Lung, Mitral disease of heart, and Aneurysm. Of the deaths due to Diarrhœa only one was admitted in good health, two in fair and two in indifferent health. Malaria, Dysentery, Bronchitis and Diarrhœa were the prevailing diseases. The chief factor is the climate of Thána. All prisoners with enlarged spleen were treated with quinine in the form of mixture in 10 grain doses. All the newly admitted prisoners were inoculated with Plague prophylactic vaccine. On the whole the general health of the prisoners was good.

Shikárpur Prison.—The death-rate is 19·0 per mille. The deaths were due to (1) Acute spreading septic cellulitis, (1) Tubercle of lungs, contracted outside the Prison and (1) Acute Oedematous Lyrengitis. There were 63 cases of Malaria, contracted mostly outside the Prison as the disease was prevalent in Shikárpur. Quinine was issued in 10 grain doses as a prophylactic in solution every week. The health of the prisoners was good.

Dhulia Prison.—Death-rate 18·4 against 15·9 last year. The deaths were due to (3) Diarrhœa and one each from Sun Stroke Intestinal Obstruction, Tubercle of Lung, Pleurisy and Dysentery. Of the three deaths from Diarrhœa two were admitted in bad state of health and one in fair health; of the two one was 50 years old and was admitted into the Hospital on the day of his admission to Prison. The prisoner who died of Dysentery was 60 years of age and was removed to Hospital for treatment day following his admission into the prison.

Aden Special Prison.—Death rate 17·2 against *nil* last year. The increase is due to a small number of deaths, *viz.*, one from Dysentry in a small population. The prisoners generally enjoyed very good health.

Rájkot Prison.—Death-rate 15·4 against 39·5 during last year. There was only one death from Tumour of Mediastinum against three in the year previous. The general health of the prisoners was good.

Hyderabad Central Prison.—Death rate 15·3 against 19·2 in 1912. Of the deaths 4 are due to Dysentery, 3 to Pneumonia, 2 to Tubercle of Lungs and one each to Malarial Cachexia, Congestion of lungs, Ulcerative Colitis, Cancer of Stomach and Peritoneum, Appendicitis, Abscess Liver, Mitral Stenosis and inconjutence and Sun Stroke. The principal diseases were Malaria, Dysentry and Mumps during the year. Probably many of the cases returned as Dysentry were in reality cases of simple Catarrhal Enteritis. These usually answered readily to treatment by saline purgatives with milk diet and recurrences were rare. The mumps cases occurred throughout the year; the disease never assumed an epidemic form, 3 or 4 cases being the most that occurred at one time. Isolation of contacts and disinfection of bedding, barracks, etc., were carried out. The highest figure for any one disease is 38 under Malaria. As no microscopical examination was carried out and the diognosis made merely from Clinical symptoms and signs, it is probable that some of the cases entered as this were not malarial. Prophylactic quinine was issued throughout the year.

53. The health of Yerávda 5·8, Deccan Gang 8·2, Bijápur 14·0, Dhárwár 7·6, Ratnágiri *nil*, Ahmedabad 10·6 and Sukkur 4·4 has been satisfactory.

54. The following methods were adopted during the year under report with a view to improve the health of the prisoners confined in our Prisons and

Jails and are inserted here in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115, dated 29th December 1896.

(1) Issue of wheat and rice in lieu of bajri and jowari.

(2) Issue of 2 ounces extra flour and one ounce of molasses to working prisoners in the Deccan Gang.

(3) Issue of extra rations to weakly prisoners and convalescents.

(4) Issue of quinine as prophylactic.

(5) Issue of potatoes and onions in lieu of green vegetables.

(6) Issue of extra warm clothing when considered necessary.

(7) Inoculation by Professor Haffkine's prophylactic serum.

55. Reviewing the health statistics of subsidiary Jails and Lock-ups it will be observed that the population has fallen from 74,588 in 1912 to 67,033 in the year under report.

56. The daily average strength, number of admissions into hospital and daily average sick have been respectively 1,705, 1,062 and 22·3 against 1841, 1,256 and 24·3 in the year previous. The number of deaths was 28 against 18 in 1912 and the death-rate per mille of average strength has been 16·4 as against 9·8 in the year previous.

Statement No. XV.

57. The marginally noted statement shows classes chiefly responsible for sick admissions and deaths.

There was only one admission and one death from cholera against 40 admissions and 16 deaths in the year previous. This stray case occurred at Kárwár, the origin of which could not be traced.

Dysentery shows an increase of 9 in admissions, but decrease of 5 in deaths. The prisons of Yeravda, Thána and Sukkur show an increase over the figures for the past year.

Malaria—690 admissions and 4 deaths against 601 admissions and 4 deaths in the year previous.

Quinine was given as a prophylactic in 10 grain doses in almost all the prisons.

Tubercle shows 39 admissions and 14 deaths against 51 admissions and 18 deaths in 1912. Of the admissions 23 in all probability contracted the disease outside the prison.

Anæmia and Debility account for 65 admissions and 4 deaths against 79 admissions and 4 deaths in 1912. Of the deaths one man of 76 was admitted in a dying state of health in the Karáchi Prison.

Other general diseases show 1,066 admissions and 21 deaths against 973 admissions and 23 deaths in the year previous. Deaths were due to :—3 from Secondary Syphilis, Pyrexia 3, Tuberculosis of Intestines 2, Erysipelas 2, Rheumatic fever 2, and one each from Gonorrhœa, Leprosy, Tumour of Mediastinum, Pyaemia, Scurvy, Pericarditis, Remittent Fever, Cancer of stomach and Peritoneum and Acute Carbolic poisoning while in hospital.

Pneumonia 83 admissions and 20 deaths against 61 admissions and 20 deaths in the year previous. His Majesty's Common Prisons 2; House of Correction 3; Yeravda 3; Thána 5; Rájkot 3; Ahmedabad 2; Hyderabad 4; Sukkur 3; show an increase as shown against them over the figures for the past year.

Other respiratory diseases show 262 admissions and 9 deaths against 216 admissions and 8 deaths in 1912. The Deccan Gang shows 39 admissions and 1 death last year; Dhárwár 21 admissions against 8; Thána 48 admissions against 16 admissions and 1 death; Karáchi 31 admissions and one death against 12 admissions with no death last year.

Diarrhœa 345 admissions and 18 deaths against 371 admissions and 16 deaths in 1912. The Yeravda Prison has 188 admissions and one death against 137 admissions and no death in 1912; Deccan Gang 20 cases and one death against 7 admissions and one death last year; Thána 27 admissions and 5 deaths against 19 admissions with same number of deaths in the year previous; Sukkur 11 admissions against one last year. In the Bijapur Prison the number of admissions has fallen from 52 in 1912 to 12 in the year under report; also in Ahmedabad it has fallen from 37 admissions and 5 deaths to 21 admissions and one death in the year under report.

Abscesses, boils, ulcers are 508 admissions and no death against 516 admissions and one death in the year previous.

58. Out of the total of 21,539 prisoners who were discharged during the year 11,776 or in other words 54·6 per cent. gained weight against 61·9 in the year previous; 4,268 or 19·8 per cent. lost weight against 16·4 in 1912 and 5,495 or 25·6 per cent. remained stationary as compared with 21·7 in 1912.

OFFICIAL AND NON-OFFICIAL VISITORS.

59. There were two hundred and thirty-seven Official Visitors during the year for our Prisons and Second Class Subsidiary Jails. Sixty-eight quarterly meetings were held during the year and all were well attended. Five hundred and sixty visits were paid by Official Visitors, while one hundred and fifty-three were paid by Non-Official Visitors.

BUILDINGS.

60. The following allotments were sanctioned during the year for original major works :—

	Rs.
(1) Barrack for 64 prisoners in the Ahmedabad Central Prison.	14,000
(2) Certain works in H. M.'s House of Correction, Bombay ...	50,000
(3) Acquisition of site for the Prison at Hindalgi in the Belgaum District	7,100
(4) Certain works in connection with the extension of the Juvenile Class in the Dhárwár Prison	5,500
	76,600

Out of this grant of Rs. 76,600, Rs. 50,000 have not been expended as the question of buliding a new Civil Jail at the House of Correction has been abandoned, *vide* Judicial Dapartment letter No. 1589, dated 12th March 1914.

In addition to the above, a sum of Rs. 16,000 was allotted for the discretionary grant, all of which was expended during the year under report. Of this sum Rs. 3,970 were allotted for providing a connection pipe from the District Jail at Bijápur to the main pipe line of Bijápur water works; Rs. 1,450 for providing water connection for Hyderabad Prison Tank from the Municipal main; Rs. 3,472 for constructing store-room, fuel-room and shifting place at Hyderabad Central Prison; Rs. 1,938 for constructing a contractor's godown at the Sukkur Prison; Rs. 1,697 for additions and alterations in the Clerks' quarters and in the Hospital for female prisoners in the Thána Prison; Rs. 1,243 for additions and alterations in the barracks in the Dhulia Prison and water pipe connection to the Bathing Platform in the Dhulia Prison; Rs. 716 converting barracks into quarters for single and married warders in the Shikárpur Prison; Rs. 299 for additions and alterations in the Sub-Assistant Surgeon's and Clerks' quarters at Sukkur, etc., and the balance was expended on numerous petty works.

MISCELLANEOUS REMARKS.

61. During the year 1913, the following Prisons, Gangs and Subsidiary Jails were inspected either by Lieutenant-Colonel J. Jackson, I.M.S., or myself:—

Central Prisons.	District Prisons.	Subsidiary Jails.	Gangs.
Yerávda.	Rájkot.	Wadhwán.	Deccan Gang.
Ahmedabad.	House of Correction.	Belgaum.	Sind Gang.
Hyderabad.	Thána.	Násik.	
	Common Prison.	Sholápur	
	Dhulia		
	Dhárwár.		
	Bijápur.		
	Ratnágiri.		
	Kárwár.		
	Sukkur.		
	Shikárpur.		
	Karáchi.		

In addition numerous visits were paid to the Central Prison, Yeravda, H. M.'s Common Prison and H. M.'s House of Correction. The Central Prison, Ahmedabad, Deccan Gang, Dhárwár and Belgaum were also paid flying visits.

62. The Dhárwár Juvenile Class consisted of 55 prisoners at the close of the year as against 48 at the close of 1912. Their general conduct was good. During the year two boys were awarded corporal punishments as they were found not to be amenable to ordinary treatment. Out of 15 discharged during the year, one was transferred to Dhulia Prison to work as a carpenter in that Institution and one was released on appeal. Three were removed from the Class being of persistent bad behaviour; six were released from the Prison but they having no intention of following the carpentry industry, returned to their native place; one prisoner was given a set of tools and a sum of Rs. 6 as an advance; on his release he worked with Messrs. Ahmed Deoji & Co. for a month only and then returned his set of tools and the sum of Rs. 6 to the Superintendent, Common Prison, and went away to his native place stating that his father was very ill and he never returned. Three prisoners who have been transferred to H. M's House of Correction for their release, due in February 1914, intended to take up carpentry work in Bombay. The Superintendent, Dhárwár Prison, remarked in his report that none of the boys who were found employment in Bombay on release, seemed to have stuck to their work. Nor in spite of promises had any of them written to the Superintendent to inform him of their welfare.

During this year also articles made in the class were sent to the Mysore Dasara Exhibition and the Dhárwár Industrial Exhibition and were awarded bronze medals at both the places.

63. Though the events do not pertain to the year under report, it may be stated that a beginning has been made in the Dhárwár Prison of the "Borstal System" since the 1st of February of this year. A school-master and 4 specially selected warders have been entertained and classes have been formed, instructions being given in primary education and physical drill.

About 20 boys are being taught masonry under the guidance of a trained mason and are engaged in building the wall of the "Dhárwár Borstal Jail." Their services will be very useful in building the dormitory, etc., in connection with that prison. The remainder of the boys are being taught carpentry.

I eagerly look forward to the formation of the Prisoners' Aid Society, a public meeting for which was convened and presided over by His Excellency the Governor on the 18th March 1914. The necessity for such a Society was fully laid at the doors of philanthropic and energetic workers by His Excellency.

It will be seen from paragraph 7 of this report that no less than 6,151 prisoners convicted, were between the ages of 15 and 25. If these youths were taken in

hand at this flexible age and assisted to adopt some honest means of livelihood a great step forward would be made in our penological system—to say nothing of the removal of a burden and a nuisance to society.

Paragraph 62 of the report states that none of the boys who were trained in carpentry and released from the Dhárwár Class, appear to follow the trade which they were taught and this is disappointing. I expect that the formation of the Prisoners' Aid Society will enable a better hold to be kept on these boys and their subsequent career followed more closely.

64. A well-earned honour—that of Khán Sáheb—fell to Mr. Nasárwanji Rustomji Wachha, the acting Superintendent of the Common Prison. He has always performed his duties in a most conscientious and thorough manner.

65. The results of the year may be briefly summarised as follows :—

The gross cost per head is Rs. 93-10-10 against Rs. 94-6-9 in 1912. The net cost per head Rs. 78-1-0 against Rs. 67-2-0 in 1912. The cash earnings Rs. 1,37,915 against 2,49,623. The death rate 15·6 against 16·0 in 1912.

66. During the past year my office staff worked very well and credit is due to my Head Accountant Mr. Keshav Narayan Ratnaparkhi for the timely submission of this report.

I have the honour to be,

Sir,

Your most obedient servant,

C. S. LOWSON,

Major, I. M. S.,

Acting Inspector-General of Prisons,

Bombay Presidency.

STATEMENTS.

	Lbs.ozs	Ozs.	Ozs.	Drs.	Drs.	Drs.	Drs.	Lbs.			
For Subsidiary Jails (a) ...	1 4	4	6	8	4	4	6	2		1 lb. bájri or jowári flour, 6 drs. salt and 1 lb. firewood.	*Ratnágiri Prison.*—Rice 1 lb. was issued in lieu of bájri on Monday, Tuesday, Friday and Saturday from 1st January to 16th July 1913 and on all days of the week excepting one meal on Wednesday and Sunday from 17th July 1913 to 25th October 1913. Since 26th October it is issued only thrice in the week, on Monday, Thursday and Saturday. *Yerávda Central Prison.*—The quantity of condiments was reduced to half in the case of European prisoners from the year 1909 on medical grounds. The quantity of condiments reduced to 3 drs. on medical grounds for all other prisoners. Convict Overseers were given meat on Wednesdays along with convict Warders. *Kárwár Prison.*—Jowári conjee was changed into Rice conjee during the year, and 8 oz. onions once a week. *Deccan Convict Gang.*—Issue of 2 ozs. extra flour to all working prisoners continued throughout the year. One oz. of molasses issued to every working prisoner excepting those sick prisoners who are on (*d*) diet with the morning conjee. *Bijápur.*—Potatoes in lieu of Vegetables and dall. Double quantity of tamarind on dall days. *Sind Gang.*—Instead of 32 ozs. of bájri on Sunday, 12 ozs. of wheat and 14 ozs. of bájri on Monday and Thursday, wheat 8 ozs, bájri 14 ozs. and molasses 1 oz., Tuesday wheat 12 ozs. and Jowari 14 ozs. instead of 2 lbs. Jowári one oz. of Molasses is issued to working prisoners in lieu of 2 ozs. flour on Monday and Thursday. *Wadhwán Jail.*—The issue of mutton was stopped from 1st April 1912 and Besan issued in its place. (*a*) This scale was in force in all the Subsidiary Jails except Wadhwán in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this statement for Native prisoners in District Prisons.

BOMBAY : PRINTED AT THE GOVERNMENT CENTRAL PRESS.

No. 5025.

JUDICIAL DEPARTMENT.

Bombay Castle, 9th July 1914.

Letter from the Inspector-General of Prisons, No. 4652, dated the 14th May 1914—Submitting the Annual Report on the Jails of the Bombay Presidency for the year 1913, together with a statement contrasting the main results of the administration of the Jail Department for the years 1912 and 1913.

RESOLUTION.—The daily average population of the jails in 1913 shows an increase, amounting to 11,437, as against 10,899 in 1912. This increase, however, appears to represent simply the cumulative effect of action taken in previous years. In other respects the jail statistics show a decline from the unusually high figures of 1912, a year which followed after a deficient monsoon and an inadequate rise of the Indus. The actual number of prisoners of all classes confined in 1913 was 103,861, showing a decrease of 5,598. Similarly, the annual number of convicts received into prisons and jails fell to 18,812, as compared with 20,186 in 1912 and 17,530 in 1911.

2. There was a satisfactory decline in the number of sentences of imprisonment for one month or less, the figures falling from 6,454 to 5,414. Almost the whole of this decline, however, is to be traced to Bombay City, the figures for the mofussil showing little improvement. A decrease in the number of such sentences, both in the case of first offenders and of habitual offenders, is much to be desired in the mofussil, and the attention of Magistrates should again be drawn to this point. It is well known that short terms of imprisonment tend to corrupt first offenders, and fail to deter habituals. In Bombay City the number of first offenders committed to jail in default of payment of fine was disproportionately high. A circular has recently been addressed by Government to the Presidency Magistrates on the subject, suggesting the freer use of the "first offenders" section of the Procedure Code.

3. The number of punishments increased in slightly less proportion than the daily average number of convicts subject to the control of the Department. Government have already taken due notice of the excess of floggings in the Ahmedabad and Yeravda Central Prisons.

4. Government agree with the Inspector-General of Prisons that it would be well if remands in the cases of undertrial juveniles and juvenile adults were curtailed, such prisoners being specially liable to contamination from being marched to and fro between the Jail and the Court in company with hardened criminals. It is, no doubt, often difficult for the Courts to accord special treatment in this respect to juvenile offenders. But Government trust that Magistrates will bear this point in mind when occasion arises.

5. The vital statistics of the year are normal. Among the highest death-rates this year are those of the Common Prison and of the House of Correction, Bombay. This fact emphasises the need for the proposed new prison outside Bombay, at Andheri, the plans and estimates for which underwent revision in the course of the year, and the construction of which has been undertaken since the close of the year. The jail accommodation of the Presidency received the addition of a barrack for 64 prisoners in the Ahmedabad Central Jail.

6. The acknowledgments of Government are due to the Inspector-General and to the staff of the Department for their services during the year.

(Signed) A. F. KINDERSLEY,
Under Secretary to Government.
